Entrepreneurs' Programme

# OVERCOMING REGULATORY HURDLES FOR DEVICES

- > **Thursday, 7 December 2017**  
12:30pm – 4:00pm  
Deloitte Office Melbourne  
550 Bourke Street  
Melbourne VIC 3000

The Entrepreneurs' Programme Learning Event brings together two experts in the field that will be able to assist SMEs to understand from a regulatory and operational perspective what is required to ensure ISO13485 compliance.

This workshop will be valuable to both companies that have this accreditation but also those making transitions and aspire to operate in the medical device sector.

- > **Andrew Batty**  
Andrew is an experienced MedTech CEO that has developed, executed and managed business strategies to commercialise innovative and emerging technologies. Andrew has secured ISO13485 certification for manufactured devices and recruited distributors for overseas markets
- > **Seamus Orr**  
NSW Manager for PharmOut, a rapidly growing international consultancy offering GMP compliance, qualification and validation, TGA regulatory, engineering and architectural consulting services.

For more information on this event, please contact Julie-Anne White on 0412 357 891.

The Entrepreneurs' Programme is the Australian Government's flagship initiative for business competitiveness and productivity. It forms part of the Government's National Innovation and Science Agenda.

The Programme uses experienced Advisers and Facilitators, drawn from industry, to ensure businesses get the advice and support they need to improve their competitiveness, productivity and to maximize their growth potential.

Practical support for businesses, researchers and entrepreneurs includes: advice from people with relevant private sector experience, co-funded grants to commercialise novel intellectual property in the form of new products, processes and services, funding to take advantage of growth opportunities, and connection and collaboration opportunities.
